MESSAGE OF THE PRESIDENT

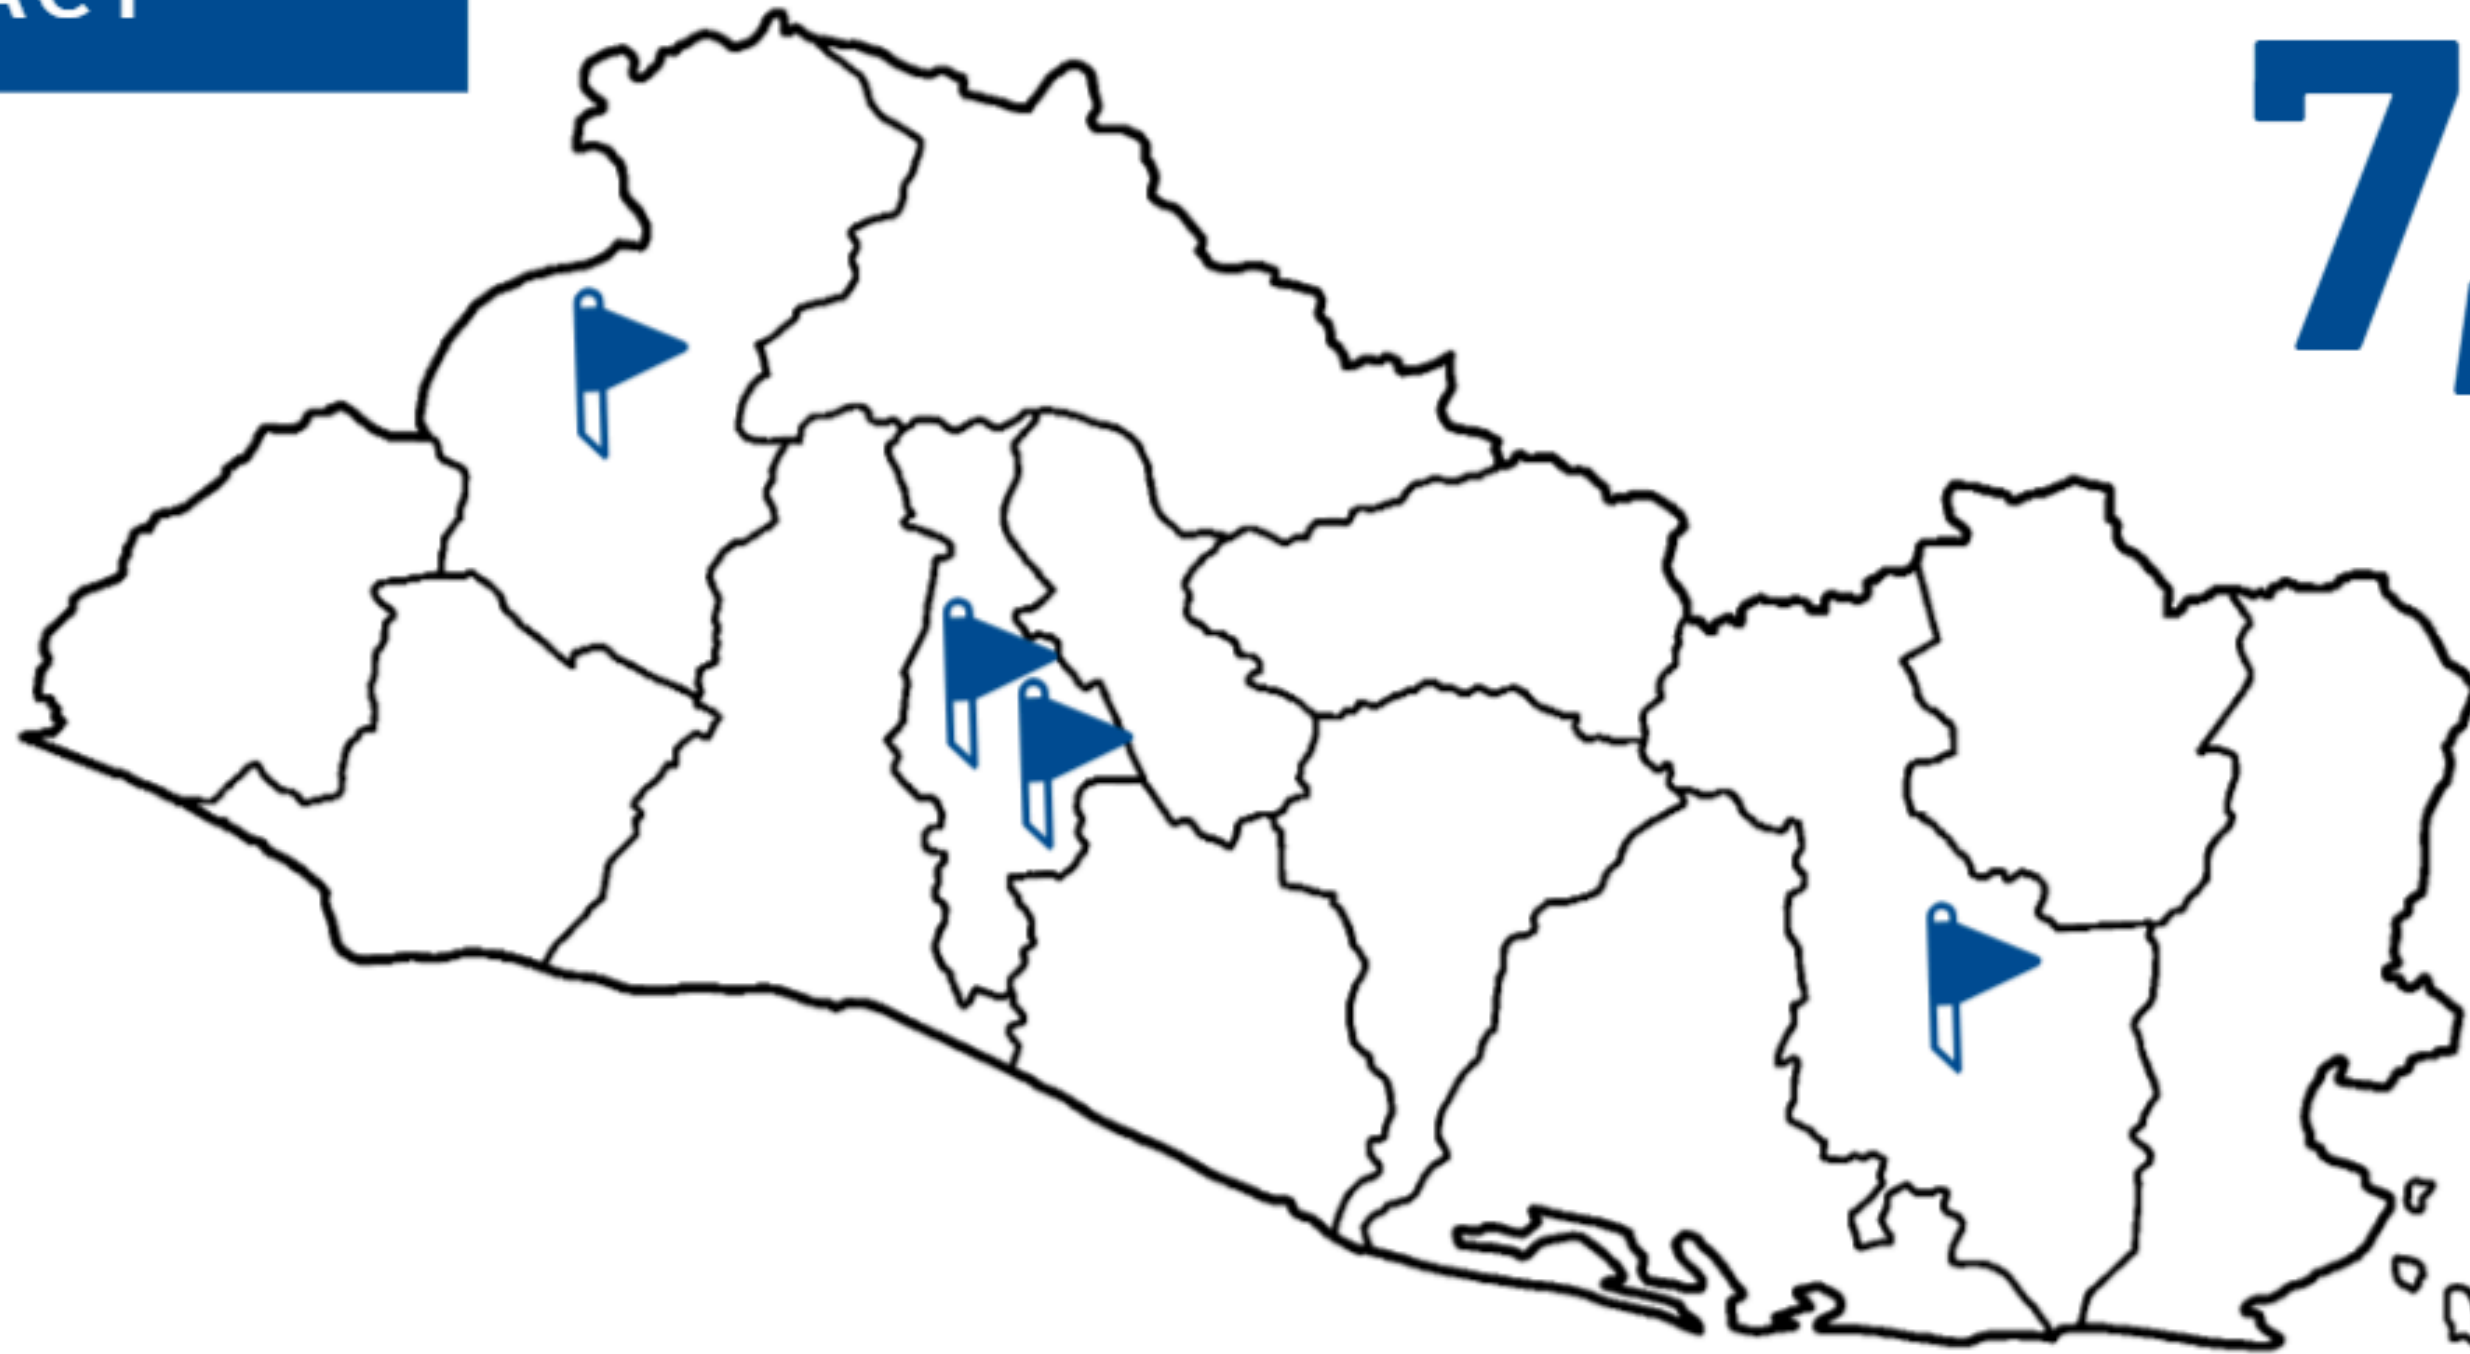

Reyna Díaz
President.

One of the most important goals for FUSALMOUSA is that the children and youth of El Salvador have spaces where they can learn, share, play, shout, without the fear that something negative may happen. In 2022, more than 800 boys, girls and young people managed to do it: they played, shared, drank healthy water, and that fills us with joy and hope, as it allows us to know that we are on the right path.

As Don Bosco said, “To work successfully, have charity in your heart and patience in your execution.” 2022 was a challenge, after emerging from a pandemic that lasted a little more than two years, moving towards where we wanted with all our strength, it was not easy, but we are going slowly and with the faith that every day we will be supporting more boys and girls and young people. By 2023 we want to do more.

To do this we have to work hard with the support of all of you. Thank you for being present in our projects and events. Every time you like us and share the content of our official social media accounts, you support us to be a larger community. I have the pleasure and satisfaction of presenting to you our 2022 Work Report. With all my heart I hope you can find the motivation and joy that moves us to be in this organization, because a little piece that we give to our country makes it better every day.
